REPUBLICAN VICTORY

A Real Landslide in Both Nation And State

CORBIT FOR REPRESENTATIVE

One of the most sweeping Republican victories in party history Tuesday stood recorded for Senator Warren G. Harding for President and a Republican Congress.

Tremendous and unparalleled Republican pluralities beginning with the first count of ballots in the election continued mounting during the week.

Defeat in their fight both for the Presidency and Congress was conceded early by Democratic national leaders on the basis of the crushing Republican vote, despite the absence, even early, of final and official figures.

With the Presidency and Congress went the loss to the Democrats of governors, State Legislatures and other State and local candidates.

GAINS IN SENATE AND HOUSE

The Republican congressional swing was strong, increased majorities in both Senate and House being marked up. Early Wednesday victory for virtually all fifteen Republican senators for re-election was spelled by the returns, while about a half dozen of the nineteen Democratic candidates were battling against Republican leads.

The first trial of woman suffrage contributed largely to the Republican majorities, and also was a factor in delaying the count in many States. The millions of women's ballots also swelled the popular vote recorded beyond all records.

THE STATE TICKET

The large majorities given the state, county and local Republican ticket on Tuesday, were the largest ever recorded in Delaware. This wonderful increase is largely due to the loyalty of our women, together with thousands of dissatisfied male Democratic voters.

THE LOCAL TICKET

Hon. Alexander P. Corbit received a flattering vote in St. Georges Hundred as the Republican candidate for Representative in the General Assembly, defeating his Democratic opponent, (who on the face of the registration had a majority of more than 100) by 48 votes.

William H. Evans the Republican candidate for the State Senate, in the 6th district, was defeated by James McIntire by the small margin of 23 votes.

ST. ANNE'S CHURCH NOTES

EPISCOPAL

Sunday, November 7th, 1920. The 23d Sunday after Trinity.

Services: 10.30. Sermon and Holy Communion.

11.45. Sunday School.

7.30. Evening prayer and address.

CALENDAR FOR MONTH OF NOVEMBER

Nov. 1st. All Saints' Day.
" 7th. 23d Sunday after Trinity.
" 14th. 24th " " "
" 21st. Sunday next before Advent.
Nov. 25th. Thanksgiving Day.
" 28th. 1st Sunday in Advent.
" 30th. St. Andrews' Day.

Our Sunday School is in a flourishing condition. The work of the Sunday School is positive and constructive, so it is essential that the church take a lively interest in this part of Christ's work. "Let the little ones come unto Me and forbid them not for of such is the Kingdom of Heaven." Far better is it to instill God's word into the minds of the young than to try to remedy things later on in life when right must be substituted for wrong lines of thought and action.

It is not too early to think about Confirmation. We hope our new Bishop will make his visitation shortly. And you can help in this matter by thinking, talking and praying about it. It is a part of your church work as well as saying your prayers.

Have you noticed the prominent part 'I' plays in 'initiative'? Don't fail to attend these meetings. We want the co-operation of every member.

THE CHURCH AT WORK

The Church at Work is a monthly magazine issued by the Presiding Bishop and Council of the Church. A number of copies have been sent to St. Anne's parish. One or more for every family. They will be distributed at the church door. You should have your copy. Then read it. It will furnish news about the church at large, of which you should have knowledge.

Success is spelled with seven letters. Of the seven only one is found in "Fame" and one in "Money," but three are found in "Happiness."

And only the Master shall praise us,
and only the Master shall blame;
And no one shall work for money, and
no one shall work for fame,
But each for the joy of working, and
each, in his separate star,
Shall draw the thing as he sees it for
the God of Things as they are.—
Kipling.

You are cordially welcome to our services. Let this be a hearty invitation to you to come here again.

Basketball Games

A few weeks ago the Freshmen and Sophomores played a very exciting game. The Sophomores won 6 to 2. Several days later the Juniors and Seniors played. At first it was in favor of the Seniors, but it suddenly changed and the Juniors won 8 to 7. The two winners played on Wednesday, Nov. 3d. The result was that the Sophomores won 14 to 6. The players were:

Sophomore Team—Margie Records, foreward; Harriett Black, foreward; Caroline Fouracre, guard; Gladys E. Gabriel, guard; Deweese Ginn, center; Edna Reynolds, side center.

Junior Team—June Johnson, substitute from Senior team for foreward; Georgia Wiggin, foreward; Pearl Wells, guard.

Entertained Friends

Mr. and Mrs. A. Fogel entertained at "dinner" on Sunday in honor of their daughter Laura's seventeenth birthday. The following guests were present: Mr. and Mrs. S. Burstan, of Atlantic City, N. J.; Dr. and Mrs. M. B. Burstan, of Chester, Pa.; Mr. and Mrs. Sidney Grant, of West Chester, Pa.; Mr. and Mrs. C. W. Schragrin, Mrs. H. Feinberg, Misses Sadie and Beatrice Jacoby, Helen Seiler, Messrs. Harry Isador, David and Elilua Schragrin, Sam, Henry and William Fienberg, of Wilmington; Miss Sarah Stein and Mr. Leon Stein, of Baltimore, Md.; Mr. M. Leon Liman, of New York City; Miss E. C. Clark and Dr. L. Levinson, of this town.

Memorial Monument Ceremonies

On Thursday next, November 11th, there will be unveiled with appropriate ceremonies, the Memorial Monument now partially erected in Cochran Square in honor of the World War heroes who from Middletown and vicinity, gave their young lives for their country.

The speakers will be Major Le Fevre, of Dover, and George W. Carr, of Philadelphia. Music will be given, and the school children will take part in the exercises which will begin at 11 o'clock.

LOCAL HAPPENINGS

Many Condensed News Items of the Past Week

IN THIS AND NEARBY POINTS

Hallowe'en coming on Sunday this year, Monday night was observed in Middletown as the occasion for street mummers and frolic.

Peter Tingle, an aged man, of Delaware City, was saved from drowning in the Chesapeake & Delaware Canal, into which he had fallen, by two soldiers from Fort duPont.

This (Saturday) evening, in Firemens hall, the Delaware City Century Club will give a dance under the direction of Mrs. T. Bayard Heisel and Mrs. Frank Moore. Proceeds for the piano fund.

The Mispillion river from Milford to Delaware bay is to be re-dredged by the United States Engineer. Under previous contracts the channel of the Mispillion was dredged 60 feet wide and 6 feet deep from the mouth of the river to the fixed highway bridge at Milford.

According to a bulletin just issued by the State Highway Department the pavement on the Concord Pike has been completed and will be opened for traffic for its entire length in about two weeks. The concrete road from Ginn's Corner to Townsend is finished but not yet to traffic.

With elaborate exercises the new motor pumping engine of the Singerly Fire Company, of Elkton, was officially housed Saturday afternoon. Several thousand persons were present including several hundred firemen from Wilmington, Chester, New Castle, Newark Chesapeake City and other cities.

Blackbird gunners are concerned over a disease which seems to be spreading among rabbits in this section. While no one seems to know just what the new disease is, it seems to be playing havoc among the young rabbits especially, and as a result many can be found dead in the thick places, mostly near streams of water.

The sweet potato crop in Blackbird and Townsend section is the poorest known for five years. In many instances growers have not raised enough for their own use. While the potatoes are scarce, they can be bought for 40 and 50 cents a basket. The crop will not pay for the fertilizer and labor spent in growing them. Farmers think they will use nitrate of soda for the next crop instead of the cheaper phosphates.

An Aged Voter

Mrs. Elizabeth Spruance, of Odessa, was perhaps one of the oldest voters in Delaware to cast her ballot on Tuesday. Although Mrs. Spruance is descended from a strong Democratic family, she like many other good Americans cast a straight Republican ticket this time. She was particularly gratified in the fact that her cousin, General Alexander P. Corbit with whom she makes her home, was a candidate for Representative and her first vote assisted in his election. Her one desire now is that she may be spared to enjoy at least four years more of earthly pleasure, which she hopes it may be her pleasure and privilege to vote once more for General Corbit, not however for Representative, but for the office of Governor of her native State of Delaware. Mrs. Spruance will celebrate her 91st anniversary on Sunday, November 7th.

Delightful Hallowe'en Party

Mrs. George W. Lockwood entertained a number of little people at a Hallowe'en party on Monday evening, in honor of her grandchildren, Jack and Adelaide Green, children of Mr. and Mrs. John C. Green. All the children were masked and had a delightful time. They paraded to Main street and enjoyed the fun. Hallowe'en refreshments were served.

Those present were: Helen Cleaver, Helen Fouracre, Mabel Fouracre, Marian Heldmyer, Catherine Beasten, Helen Foard, Virginia Truitt, Charlotte Donaghay, Lucy Green, Evelyn Elliott, Elizabeth Swain, Ann Bragdon, Malcolm Cochran, Billy Shallcross, Henry Vaughan, Roland Heldmyer, Joseph Beasten, Reed Combs, Arthur Williams, Sewell Biggs, Ernest Truitt, Richard Green, John C. Swain, Francis Burris, Geoffrey Newsome, Clark Buckworth, Albert Buckworth.

For a good movie show go to the Opera House every evening next week.

Hallowe'en Party

Miss Edna Whittington entertained a number of friends at a masked Hallowe'en party at her home on Saturday evening. Games of the Old Witch's were enjoyed till a late hour. Those present were: Misses Edna Whittington, Kathryn Whittington, Blanche Messick, Anna Bell Messick, Virginia Brady, Mabel and Helen Fouracre, Kittie Carpenter, Mary Hynson, Henry, Charles and John Howell, Francis Burris, John Donohue, Julian King and Junior Whittington.

Vegetable and fruit garden to rent for 1921. Liberal terms. Apply at once. MRS. W. V. WOODS, Odessa, Del.

STATE AND PENINSULA

The citizens of Ellendale will meet this week to formulate plans to obtain better drainage for the town.

The first automobile race ever held in Delaware was run at Harrington, Thursday, with 15 racers entered.

The Delaware Trust Company has purchased the Palmer building, at Front and Federal streets, Milton, and will erect a $20,000 bank building.

Because of a slight case of anthrax, supposed to have been caught in a local brush factory, the Lewes schools are closed until the danger is passed.

Because of a nervous breakdown brought on by overwork, E. A. Hardesty, superintendent of Sussex county schools, has been granted a four weeks' vacation.

Fred Windsor, charged with attempting to transport 36 quarts of whisky through Delaware, was fined $300 or six months in jail by Judge Rice in Wilmington.

The drive to raise $200,000 for enlarging the Peninsula General Hospital, Salisbury, is meeting with much success the committee reporting that $70,000 has already been subscribed.

Removal of several thousand people who worked there during the war has relieved the housing situation which was critical in Wilmington several months ago, according to Mayor Taylor and William Coyne, vice-president of the duPont Company.

One of the "livest" students at Delaware College is a freshmen, who has a picture of the grave where he lies buried in France. He is Nathan Cooperman, of Philadelphia, and is studying agriculture under the care of the Federal Board for Vocational Training.

BETHESDA CHURCH NOTES

Sunday, November 7th, 1920.

9.30 A. M. Brotherhood meeting.

10.30 A. M. Morning worship with sermon by the Pastor.

11.30 A. M. Sunday School with "Rally Day" exercises. Special speaking and music by the children. A very cordial invitation is extended to the parents and friends to be present. If not a regular attendant yourself, come and show your interest in the little folks. If EVERY OFFICER, TEACHER and SCHOLAR will try, we can make that service—AN EVERY MEMBER PRESENT DAY.

6.45 P. M. Junior League meeting. Parents, this society is for the training of your children. Show your interest by seeing that your little folks are present.

7.30 P. M. Evening worship with sermon by the Pastor. The sermon will be to the Young Ladies. This subject will be of interest to the Young Men as well, also, to the entire congregation. Come and hear the full chorus choir sing their sweet songs, at both morning and evening services.

Prayer meeting each Wednesday evening at 7.30 o'clock.

The SECOND and THIRD Quarterly Conferences will be held on Wednesday evening, November 10th, at 8.15 o'clock or at the close of the prayer meeting. Dr. Wise, our District Superintendent, will preside and also speak at the prayer meeting service. Let every official member plan to be present at the prayer meeting and the Quarterly Conference.

Dr. Black to Head New Home

Dr. R. A. Black, assistant superintendent of the Polk, Pa., Home for Feeble-Minded Children, has been elected superintendent of the new Delaware Home for Feeble-Minded Children, near Stockley, by the Delaware Commission for the Feeble-Minded, at a salary of $4,250 a year. Dr. Black has been stationed at Polk Home for the past fifteen years, under Dr. J. Murdock. Dr. Black is expected to assume his duties in ten days. The appointment was made by State Senator Thomas F. Gormley and Seldon S. Deemer, members of the commission. Mrs. T. Coleman duPont is also a member of the commission. Dr. Black has been directed to select the other officials of the new State institution.

Dr. Louis Levinson, veterinarian. Graduate of University of Pennsylvania. Middletown, Del. Bell Phone 119. North Broad Street.

To Have Series of Corn Shows

The New Castle County Corn Show will be supplanted this year by a series of community corn shows The Farm Bureau Executive Committee recently decided on this policy thinking that more samples of corn would be exhibited and more farmers would view the show than would be possible through one central show.

Wherever feasible, local organizations such as granges and vocational schools will be co-operated with in conducting these shows. At this date it is impossible to announce the program, but if conditions will permit, shows will be held at Centreville, Newport, Stanton, Harmony, Hockessin, Newark and Middletown.

Good "Grub" News

Good news for the many lovers of the fine cooking of the ladies of the Methodist Church—they hold a Big Bake the day before Thanksgiving—November 24th. Fuller notice later.

Mr. and Mrs. Martin B. Burris are home again after a two months trip to California and other parts of the west and south. Their tourney, which amounted to 10,000 miles by rail plus 1000 in auto, embraced the sublime beauties of the National Park, the Grand Canyon of Arizona, the softer loveliness of Lake Tahoe, the famed old mission sanctuaries of San Juan Bautista etc., and the quaint and venerable Creole City of New Orleans. Their entire journey, which was made in the most propitious weather throughout, was one long succession of delight and astonishment, and resulted in a marked improvement to their health. Mr. and Mrs. Burris were for several weeks the guests at Irverness, and elsewhere, of Miss Mary Florence Burris, our well remembered Transcript editor, and of Mrs. Sadie Reed, and other friends. The Transcript would need to get out an "extra" to recount even a part of the marvels and glories of their long jaunt, and so the tale of it all must be left for them to tell orally.

Serious Results From Colds

Colds not only cause a tremendous financial loss but are also a serious injury to every one who contracts them as they lower the vitality and prepare the system for the more serious diseases. It is not at all unusual for people who have serious lung trouble to say "I had a hard cold last winter." Why not take Chamberlain's Cough Remedy and cure your cold while you can.

NEW COLLEGE HEAD

Dr. Walter E. Hullihen Installed Saturday

ASKED FOR UNITED SUPPORT

Dr. Walter E. Hullihen, the new president of Delaware College, in his installation address Saturday, made a strong plea for united support of all citizens of the State looking toward the strengthening of the college thereby increasing its benefits to the State. Dr. Hullihen, formerly dean of the University of the South in Tennessee, took charge of Delaware College and the Women's College, as president at the opening of this term, but the installation ceremonies were postponed until Monday. They took place in the presence of a large assemblage which included Governor Townsend and State officers, members of the board of trustees, student and faculty members of the two colleges, students of the Rehabilitation department, presidents and officials of other colleges. Henry B. Thompson, president of the board of trustees, presided. Other addresses were made as follows: Dean Winifred J. Robinson, for the Women's College; Dr. George A. Harter, for the faculty; Edward N. Vallandingham, for the alumni; George B. Miller, for the State board of education, and Dr. Hullihen. The invocation and benediction were by Dr. Phillip Cook, the new Episcopal bishop of Delaware.

P. & T. MEETING

The regular monthly meeting of the Parent-Teacher Association was held last Friday afternoon in the High School at 3 o'clock. The following program was rendered: Song, "The Goblin Will Get You." First grade, Drawing exercises; second grade, song, "Jack O'Lantern;" third grade, recitation, "October's Party." Fannie Bradley. Superintendent Jump was present to address the meeting upon the need of a modern school. Following this address a spirited discussion arose, many questions were asked and explained by Mr. Jump. Mrs. Julian Foard was appointed as chairman of a committee to arrange for a public meeting to be held some time in November in the Opera House, for the purpose of arousing the citizens to feel the need of a new school building and to issue bonds to meet this expense. The minutes of the last meeting were read by the secretary, Mrs. D. W. Stevens. The roll was then called to which 35 members responded. The banner was presented to the second grade for having the most parents present. The meeting adjourned to meet Friday, November 19th.

OBITUARY

Eugene M. Hanson

Eugene M. Hanson, of Summit Park, Yonkers, N. Y., died suddenly at his home last Saturday of heart trouble. Mr. Hanson was a former resident of this town where he has many warm friends, who will regret to learn of his untimely death. Mr. and Mrs. Hanson would have celebrated their golden wedding anniversary on Tuesday of next week.

Mr. Hanson was born in Middletown on January 7th, 1848. For 35 years he was a member of the firm of R. E. Cochran & Co., Park Place, New York City, and retired from that firm 11 years ago, at which time he moved to Yonkers and had made his home there ever since.

Deceased leaves a devoted wife, who was the daughter of the late Richard Cochran and a sister of Mrs. Andrew S Eliason and Mrs. Julian H. Cochran, of this town, and several grown children.

The remains were brought to Middletown Tuesday and interment took place in St. Anne's P. E. Cemetery.

Woodrow Wilson Harris

Woodrow Wilson Harris, 5 year old son of Mr. and Mrs. Benjamin H. Harris, of near town, died in the Delaware Hospital, Tuesday, of double pneumonia.

Funeral services were held at his parents home Thursday afternoon and interment was made in Delaware City cemetery.

PORT PENN

Mr. Arthur Draper spent Sunday with Mrs. Samuel Eaton.

Mr. Welling Ford spent the week-end with Miss Mae Yearsley.

Mr. Andy Rote spent the week-end with Miss Mildred Bendler.

Mr. James Welsh spent a few days the past week in Philadelphia.

The Hallowe'en Social held in the P. O. S. of A. Hall for the benefit of the C. E. Society was a success, being well attended and receiving $33 over and above expenses.

Sunday, Nov. 14th, the Sunday after Armistice Day, it will be celebrated by an extra sermon, also extra singing. Come all who will and hear Rev. A. J. Tippett deliver the great Armistice sermon.

See Sessue Hayakawa in "An Arabian Knight," at the Opera House next Monday evening.

Black Poms

By DOROTHY DOUGLAS

(©, 1920, by McClure Newspaper Syndicate.)

John Blackmore was bored to suffocation in the big city called New York. Glancing out of his boarding house window to the sunny street it seemed to him that every man passing was jaunty and happy and had an unmistakable air of being on his way to get the Only Girl and take her out for the afternoon.

John had no Only Girl nor even a half-way girl to go to see on Sunday. And Sunday without a girl was worse than an egg without salt. John hated his own company. He liked having good friends, but had been forced to leave them all when the firm he worked for sent him East to fill a most flattering position.

John fell to pondering darkly on what he would be doing were he still out in the homelike small town where everyone knew everyone else. Lily, Elsy, Mary or Caroline would be going out on the river with him. Lily, Elsy, Mary or Caroline would have on a freshly ironed white dress with spotless white shoes and a great flopping hat to shield an adorable face from sunburn.

And John would be gazing happily from time to time under that hat. There would be a neat box of lunch with iced tea in a thermos and plenty of homemade chocolate cake. Later there would be a glorious sunset, still later a more glorious moonrise, and still later under that wonderful moon, he, John Blackmore and Lily, Elsy, Mary or Caroline would perchance steal a moment or two from lovers' hours before taking the weary but happy trip home.

John had read his Sunday paper from cover to cover, all but the advertisements, but so homesick did he become that he picked up the sheet again in sheer desperation and began a careful review of the "Lost and Found" column. There might possibly be some drawing string in those personal notes.

One did attract John. It was an advertisement for the return of a black Pomeranian answering to the name of Pet. The girl who had lost Pet was apparently dying slowly but surely over the loss. John grieved with her. Her name was Jane Montgomery and she lived up in what John had always termed the End of the World, being One Hundred and Eighty-first street.

Now John's ideas of Pomeranians was a bit vague, but he determined to find something in the way of a dog and take it to Jane. There was always a faint chance that Jane would be attractive, worth while and all that sort of thing. John was a very hopeful type of man and he very much wanted a girl with a freshly starched white dress to take out on Sundays.

The married couple in the room behind him had an animal that closely resembled a dog. It had short black hair, a tail that waved in the air at most any angle and long spindly legs. Mike was, however, the most beloved pet of the couple. Perhaps Mike had played an important part in the couple's wooing. John hoped Mike was a mascot. He decided to borrow Mike.

He knocked gently at the rear door and told his scheme. The couple being newly married and full of romance agreed willingly. John gritted his teeth when he saw Mrs. Woodruff. Her gown was pink and fluffy and her hat wide and white. She had a pink parasol and she and Henry were about to start for a Sunday afternoon boat trip. Henry went so far as to scratch the name "Pet," on a bit of leather he had used for a wrist watch and encircle Mike's lean neck with it.

The Woodruffs laughingly wished John the very best of luck but firmly insisted on the safe return of their beloved Mike.

"She must not be so attractive as to wheedle our Mike away from you," Mrs. Woodruff admonished.

John grinned. "If Jane Montgomery is as attractive as that," he stated, "I will buy Mike an ermine cloak for next winter."

And feeling in his bones that he and Mike would be promptly put off either subway or elevated, John jumped into a taxi with the animal and gave the chauffeur an address at the end of the world. John cared not in what manner he spent some of his excellent salary so long as it was in quest of the right girl.

Mike had never had so long a ride in a taxi, but he seemed to enjoy it, since his great flappy black ears pricked up from time to time, and when John addressed him the straggly tail wagged happily.

John pulled himself well in hand when they drew up at the curb and tried to get into the atmosphere of a man who had found a lost pet Pomeranian and was firmly convinced that the animal he had was that same dog.

He and Mike went up three flights of stairs to apartment 3 and rang the bell. It was answered by Jane herself. John pushed Mike well to the front and gazed questioningly at Jane. Jane was all, and more, than a hungry, lonesome young man could desire.

When she caught sight of Mike her eyes took on an expression that was difficult to define. And when they met John's they lit up with a twinkle that prompted a grin from John.

"I found this Pomeranian and the name Pet is on his collar," lied John, and hoped she would invite him and Mike into the tiny, cool apartment.

She did. Jane led the way into a most divine little sitting room that seemed a bower of pink geraniums and nasturtiums.

"Are you a dog fancier?" asked Jane, sending a swift glance straight into John's eyes, then a long one at the un-Pomeranian outlines of Mike.

"Well—I did not suppose Pet was a pedigreed Pom, but I did think he might have a tooth or a hair or two that was sufficiently Pomeranian for me to have brought him up here."

Mike meantime was snooping about the apartment; then he returned to take up a friendly position beside Jane.

"He is black, anyway," she laughed and stooped to pet him. "I would love to keep him—since he is lost."

"I'm awfully sorry," quickly and thoughtlessly John apologized, "but the couple I borrowed him from want him back safe and sound."

Jane looked up, eyes wide and suddenly comprehending. Then she smiled, but said nothing.

John's dark red hue spoke volumes. Then knowing he was caught red-handed he blurted out the whole story. His lonesomeness, the girls in white starched dresses, the wonderful Sundays—all came out in a breathless tale of woe.

John wondered at the peculiar expression in Jane's eyes and a sense of holding back something, whether it were tears or anger he was not quite sure.

But he was destined not to know at the moment, for a knock at the door proclaimed the arrival of another Pomeranian finder.

John glowered at the young, good-looking chap who brought it as if he were his most deadly enemy. But Jane's treatment of the new arrival and her reply that the dog was not her lost treasure in a way made the sun shine a bit more brightly for John.

He realized when the door had closed on the chap that he, too, must now take his departure.

"I am sorry," he said, "that I cannot find the dog you so highly treasure, but I will leap at every black Pom I see with the hope—"

Jane laughed softly if perchance there was the hint of a tear behind it all. "There isn't any dog," she confessed with color mounting high. "I was just as lonely as you—I wanted to wear my freshly pressed white dress and my wide picture hat and—"

When they were married a short time after there was an animal prowling about the tiny church during the ceremony, and he was not even a near Pomeranian, but he was a very much loved black dog with nondescript ancestors.

Early Theory of Aviation.

John Wilkins, lord bishop of Chichester, England, who lived in the Seventeenth century, wrote a book called "The Discovery of the New World," in which he advanced several opinions upon the art of flying. In one chapter he enumerates four different ways by which flying in the air has been or may be attempted; first by angels; secondly, by the help of fowls; thirdly, by wings fastened to the body; and fourthly, by a flying chariot, which he observes, is to be preferred. The theory of his flying chariot was to create the motive power by a strong spring which would cause it to progress, worked by the labor of its occupant and a pair of wings to keep it buoyant.

Give the Medal to Binks.

"Several years ago," said Binks, "I raised some water melons which grew to an enormous size. One day a three-masted schooner went aground on the mud flats just below my house. I immediately rolled one of these huge melons to the side of the stranded craft, cut the melon in two and enough juice came out of it to float the schooner safely into deep water."

Rules.

Beth, aged six, announced at dinner: "Papa, I have made up three rules to go by, and I am going to keep them all my life. First, 'Be kind to everyone'; second, 'Keep out of danger'; third and best of all, 'When I grow up and get married and have a little girl of my own—if I have one—and the house gets afire, save the child.'"—From Life.

SOMETHING IN THIS NAME

Numerous "Percys" Have Added Brilliant Chapters to the History of the World.

From Los Angeles comes the news that Mrs. Percy Fisher Browne has induced her husband to change his name. He is now John Fisher Browne. The reason the bride assigns for getting rid of the "Percy" is that "my husband is not the Percy kind of fellow."

"But what is the "Percy kind of fellow?"

By turning to an encyclopedia, Mrs. Browne could have gotten a very different angle on the Percy name. Percy is the oldest established name of the English aristocracy. While royal family names have changed, Percys have persisted.

A Percy swung a wicked ax in the force of William the Conqueror. A Percy was one of the committee of twenty-five barons appointed to see that King John observed the provisions of Magna Charta.

When the Percys were made earls of Northumberland, it is a matter of history that the first four holders of the title all died on the field of battle, not to mention Sir Henry Percy, called Hotspur, who would have held the title had he not died fighting.

After an unsuccessful rebellion the title was forfeited for a time, and great Warwick, the "king maker," bestowed it on his brother, but the turbulent populace of Northumberland refused to be ruled by any but a Percy and the Percys were restored.

If Mrs. Browne will but make a cursory study of English history she will gain an entirely new viewpoint on what characterized the name of Percy.

The "Percy kind of fellows," had they lived in California in the days of the "'49ers," would have earned the descriptive phrase, "He's a bad man to start anything with."—New York World.

Stands for Reason.

Jud Tunkins says that one man's get-rich-quick game always means a whole lot of get-poor-quick games for other people.

HATS OF RIBBON

Very Wide Decorations Are Better for Fall Headgear.

Material Gives an All-Over Shaggy Appearance to Smart Toques and Turbans.

The latest millinery offerings might be said to have but one thing in common, and that is generally soft, unstudied effect, which is preserved, no matter what the material or the trimming. After that, writes a fashion correspondent, it is safe to say that over fifty per cent of the newest hats are of velvet, of either Lyons or panne, some of both; that ribbon hats are almost as common and often more interesting than velvet, and that felt, leather and lace are generously represented. The duvetyn displayed late in the summer is scarcely noticeable now, except in combination or as trimming.

The hats displayed in the Paris openings are now beginning to leave their mark upon the American styles, and the combination of American workmanship which understands the American woman's needs with that dashing originality of the French results in some very beautiful specimens of the designer's art. Three things characterize the latest millinery shapes. One is that soft, draped effects are particularly stressed; the second that trimmings droop, rather than spring upward, and, thirdly, that the uneven brim, especially the Harlequin shape, which widens at the sides, turns up from the face and shows a narrow rim in back, is sure to be very popular.

Speaking of ribbon hats, it is interesting to note the new ribbons manufactured for their use. The very wide ribbons running from five to ten inches, are better for the purpose of the puffed and draped hats than the narrower ribbons of the spring. There are some fascinating new shaggy ribbons, "shredded wheat" ribbons they have been called, and others with frayed edges, which, when used, give an all-over shaggy appearance to smart toques and turbans. The cire ribbons are also very good, especially the newer ones made to resemble leather. Among these latter two novelties have reached this side of the ocean—one is a snakeskin ribbon, and the other frogskin.

Imitations are not scorned by the fashionable milliner. She now condescends to use some of the new plushes instead of fur, one in particular, in a taupe gray, realistically made to resemble squirrel. There is a new "watchspring" feather trimming, sometimes imitated by such almost undreamed-of things as elephants' whiskers and other strong, curled hairs or metal threads. Coq plumes are to be expected in a season when trimming is trained to droop, and even these are occasionally imitated by picoted strands of silk, or given a metallic touch by having their tips gilded or bronzed. Coq is not used in the natural color alone, but is found in fascinating jades and rusts. Cire satin and faille imitate the gloss of fine leather to the point of deceit.

Novelties in Fur Neckpieces.

Greater variety and more detail in design will be seen in fur neck pieces this winter, furriers say. "Leading sellers," they declare, "will doubtless be the well-known animal scarf and the plain scarf, but in the newer styles there are numberless moderate-sized choker ties, the general construction of which is a scarf varying from fifteen inches to a yard long, with a slash toward one end for the other end to pass through. Another piece has a short choker collar with two wide pointed ends which lie flat against the front of the coat in revers fashion.

Honors Are Divided.

Honors are divided between the short box coat and redingote in suits.

FOR FALL AND EARLY WINTER

For everyday wear this coat with its simple but modish lines is just the thing. The collar is cut on the season's most stylish mode. It is large and could be used for a bonnet or as a protection for the hat in rainy weather.

CHIC FROCK FOR DEBUTANTE

This is a winsome dance frock for the debutante; it is of silver and blue brocade; a garland of rosebuds draped from the right shoulder with long corsage rose adds to its richness.

Posies Are Used on Gowns

Beflowered Frocks Promise to Be Favored Especially for Evening Wear This Winter.

Two kinds of flowers are being used at the moment for trimmings; they will also be worn during the winter months, especially for evening dresses. There is natural type of garden flower as well as the very fanciful one in velvet and satin, of extraordinary size and shades, such as belong to the realm of fairy tales. Many garlands fall from the waistline, and are softly mounted to allow a supple and graceful movement when walking or dancing, and they will add a nice touch of color to our dresses. There are big flowers, or small nosegays, made with faded tones and mixed shades. Some flowers are made in two colors; for instance, pink taffeta and beige pongee, with each petal cut in the two materials and placed one over the other; the petals are not sewn, but curled and pressed together, in order to effect the same waves and folds which give a fairy lightness to the flowers.

A motif at the girdle has been very much favored for a considerable time now. It is sometimes a feather pouf or a cluster of fruit, or one or two velvet flowers of fresh hue.

There are some gowns which are not only trimmed with beads, but are entirely made of them. Long fringes of beads entirely cover the slip underneath, being held by the girdle. An effect of contrasting shades is generally sought after.

Talking of beads leads to thoughts of real pearls; they are no longer worn screwed on the ear, but hang at the end of a thin thread glittering with small diamonds. Many women wind their pearl necklaces round their arms, and some others hang them across the breast from one side to the other. But the classical string of pearls that encircles the neck always remains the most lovely.

Lower Skirts, Paris Edict

Decree Comes From Fashion Land via Lady Duff Gordon, Famous "Creation" Designer.

Ladies, lower your skirts another six inches. Paris has seen enough of your calves!

This is the latest decree, observes a fashion correspondent, coming directly from Paris via Lady Duff Gordon, famous "creation" designer, who asserts that short skirts are no longer "bon ton" in the gay city.

"The correct length today is just 12 inches from the ground," she said. "That allows visibility for the ankle and just a suggestion of the calf curve and is in all respects modest and artistic."

I drew her attention to recent reports from American buyers that Paris skirts were super-abbreviated and distressingly slashed.

"That was just a frivolous show staged for the buyers," she said. "As a matter of fact nobody can tell just what the coming fashions are to be; but in fashionable Paris circles you wont' find a single short skirt today."

Fur Coats Medium in Length.

Medium length fur coats are expected by furriers to be popular wear this winter. Thirty-two to thirty-six inches is the predicted length for city wear. Some of the coats are gathered to a deep yoke and some hang straight from the shoulder, but in every case they are narrower than formerly at the foot. Belts are vanishing and buttons are usually of fur. Contrasting trimmings are used quite as much as ever. Australian opossum, squirrel, raccoon, sable, mole and beaver being the skins most frequently found on Hudson seal.

Rust, Popular Color.

Rust is a color used quite extensively in millinery for this season; gray, tete le negre and navy are also good, but there is a strong preference for black.

THE ELECTION AVALANCHE

ALL records, all precedents smashed! Harding and Coolidge have already received 376 electoral votes, and may get those of the three doubtful states of Arizona, Oklahoma, and New Mexico! The popular majority for the Republican nominees on the national ticket now reaches the colossal, unheard of figure of six millions!

President Wilson demanded of all the people a "solemn referendum" on his pet scheme "The League of Nations." Well, he has gotten it—such an emphatic repudiation by the whole Nation of that dangerous folly as forever consigns the whole wretched business to that limbo of discarded evils where repose the rotting carcasses of Slavery, Disunion and Rum.

Not to mention other lesser issues, this solemn verdict of the American People settles forever these three things:

First: That they will not substitute the "internationalism" of turbulent, monarchic Europe with its wild welter of kings and mobs, for their own sane "Nationalism" with its noble freedom, its magnificent past, and boundless future; that they will not exchange their matchless Republican form of government, devised by the wise forefathers and vindicated by 130 years of glorious proof, for the changing vagaries of a mere rabble of scheming European politicians. That they will not exchange that great Charter of our liberties The Constitution, for that impracticable folly, "The League of Nations."

Second: That they will not tolerate the insane attempt to set up an executive autocracy in place of the three equal, co-ordinate branches of our government as established by the Constitution.

Third: That they will no longer suffer the country to be mismanaged by a party which has shown itself utterly incompetent, and which has squandered and stolen thousands of millions of the people's money.

With a patriotic sacrifice never surpassed, the people all over the land, in all ranks and stations, including thousands struggling to make both ends meet, saved and pinched to raise money to buy Liberty Bonds and War Stamps, etc., and they are justly indignant at beholding this Administration's saturnalia of waste and graft that has dissipated at least eight thousand millions of that hard got money. And in their hot indignation the outraged people have administered a stinging rebuke that the guilty party will not forget in a hundred years!

OUR STATE VICTORY

THE entire Republican ticket, state and county is elected by majorities never before reached in Delaware—these majorities average 10,000 and more.

This is a fitting tribute to our newly elected Governor, and Lieutenant-Governor, William D. Denney and J. Danforth Bush, both of whom in a very creditable fashion rising from the ranks, earned their official spurs as colonel in the late World War.

The entire personnel elect of the Republican state and county ticket are of such high character as to insure the citizens good government during their terms of office.

NEW COLLEGE HEAD INSTALLED

Dr. Walter E. Hullihen, the new president of Delaware College, in his installation address Saturday, made a strong plea for united support of all citizens of the State looking toward the strengthening of the college thereby increasing its benefits to the State. Dr. Hullihen, formerly dean of the University of the South in Tennessee, took charge of Delaware College and the Women's College, as president at the opening of this term, but the installation ceremonies were postponed until Monday. They took place in the presence of a large assemblage which included Governor Townsend and State officers, members of the board of trustees, student and faculty members of the two colleges, students of the Rehabilitation department, presidents and officials of other colleges. Henry B. Thompson, president of the board of trustees, presided. Other addresses were made as follows: Dean Winifred J. Robinson, for the Women's College; Dr. George A. Harter, for the faculty; Edward N. Vallandingham, for the alumni; George B. Miller, for the State board of education, and Dr. Hullihen. The invocation and benediction were by Dr. Phillip Cook, the new Episcopal bishop of Delaware.

MAKING MONEY

Some men make their money in business—some in stocks—some by toilsome saving of their daily wages. But we submit to you the unquestioned fact that more men have achieved a comfortable competence through the ownership of property—houses and land which bring in a fixed income—than in any other way.

A word to the wise is enough. Watch your neighbors gradually rise in the world and then ascertain how they are doing it.

In nine cases out of ten you will find they have purchased their home or farm—often on easy terms—while their less enterprising neighbor is still paying rent.

A word to the wise is sufficient. If you have not yet started on a place of your own do not delay. Get full particulars about some of the following properties.

158 Acre Farm, near Kirkwood Station, $10,000.
74 Acre Farm, near Stanton, $10,000.
68 Acre Farm, suitable for fruit and chickens, $4,000.

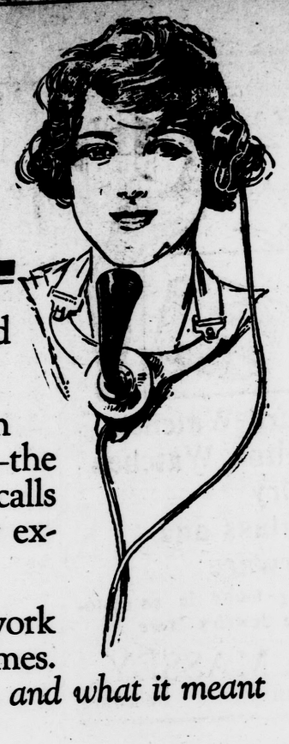
TELEPHONE PROBLEMS



IN the past few years this Company has faced many serious problems.

During the dark days of 1917 and 1918 when every thought was concentrated on one object—the winning of the war—the volume of telephone calls grew to be so great that the congestion in our exchanges became very critical.

It isn't necessary to mention the splendid work done by our operators during those trying times. *You know as well as we how they met the situation, and what it meant to the public.*

The industries of our State were engaged almost exclusively in the manufacture of war products and in helping feed the nation. It was necessary that they be given the very best of telephone service.

Then the serious epidemics still further burdened the lines and switchboards, and cut down the operating forces by absence due to sickness.

Through the press we told the public our problem. We asked your co-operation. We asked you to eliminate unnecessary calls.

It was a question of service, and you met us more than half way.

As a result, we were able to continue to furnish a very high quality service in the face of what seemed at the time to be insurmountable difficulties.

Now we face another problem. This time it is a question of revenues, which is also a question of service!

Our present revenues are not sufficient to pay the owners a return on their investment. Therefore new invested money cannot be secured to extend and improve the plant and its operation.

The people of Delaware have a vital interest in their telephone service. They want it kept at its present high level. They want it to expand and improve so as to be always of the fullest usefulness to all.

The issue does not rest in our hands; it rests in yours! We feel confident that with a thorough understanding of the problem, you cannot fail to realize that *only by placing the Company on a safe and sound financial basis can the service be saved from going down hill fast!*

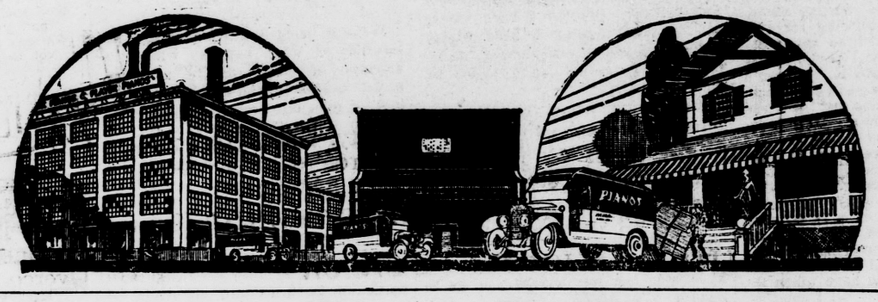
STIEFF PIANOS on Exhibition

AT

FOGEL'S DEPT. STORE, Middletown, Del.

November 8th, 1920



Direct From Factory To Your Home

That's the STIEFF method of selling pianos. We make our own pianos, and sell them ourselves. By doing so, we save you the profit that you would otherwise have to pay the middleman.

THE CHARLES M. STIEFF CO., INC. is one of the oldest and most dependable piano manufacturing companies in the country. We have been in business 78 years. We operate permanent branches in 16 cities. When you buy a piano from us, you know with whom you are dealing. You take no chances whatever, for we fully guarantee every instrument.

In coming here with our exhibition of pianos, it is our object to give to the people of this vicinity the same advantages that the people have who live in towns where we have permanent branches.

NOW is YOUR OPPORTUNITY to take advantage of the SPECIAL PRICES AND TERMS we now offer.

Our demonstration here in Middletown will last for a short time only. Our stock contains some very attractive bargains. COME IN TO-DAY and let us explain to you more about how the CHARLES M. STIEFF method can save you money on a piano or player piano.

MUSIC is the only thing that can bring lasting HAPPINESS and CONTENTMENT into your home. Your neighbor has a happy home, ask yourself WHY? He bought a piano because he realized that MUSIC meant HAPPINESS for all his household. You can afford all this lifelong pleasure for those who are most dear to you.

Your child can have a musical education, just as easy as your neighbor's child does.

Buy a piano or player piano and you will find it the best investment you have ever made.

The durability of careful construction and purity of tone, in addition to all the necessary new features, have won for our pianos the Gold Medals awarded at the World's Greatest Expositions, as well as the highest recommendations from the best Musical Conservatories, concert pianists, and symphony orchestras in the world.

This demonstration will last for a limited time only,

Nash Trucks

Are Sold at List Price

Nash Trucks invariably are sold at list price. And it is because of their unusual value that any deviation from the list is obviously impossible.

The fact is, prices of Nash Trucks would be many dollars higher than they are were it not that volume production of both passenger cars and trucks of value is carried on by one organization and under the direction of one group of executives.

Those most familiar with production methods will best appreciate what this means in low manufacturing overhead—and the saving effected is passed on to the buyer in the list price made possible for Nash Trucks.

FAINTING AND DIZZY SPELLS

The Cause of such Symptoms and Remedy Told in This Letter.

Syracuse, N. Y.—"When I commenced the Change of Life I was poorly, had no appetite and had fainting spells. I suffered for two or three years before I began taking Lydia E. Pinkham's Vegetable Compound and the Liver Pills which I saw advertised in the papers and in your little books. I took about twelve bottles of your Vegetable Compound and found it a wonderful remedy. I commenced to pick up at once and my suffering was relieved. I have told others about your medicine and know of some who have taken it. I am glad to help others all I can."—Mrs. R. E. DEMING, 437 W. Lafayette Ave., Syracuse, N. Y.

While Change of Life is a most critical period of a woman's existence, the annoying symptoms which accompany it may be controlled, and normal health restored by the timely use of Lydia E. Pinkham's Vegetable Compound.

Moreover this reliable remedy contains no narcotics or harmful drugs and owes its efficiency to the medicinal extractives of the native roots and herbs which it contains.

BIG ULCER ALL HEALED

"Here is another letter that makes me happy," says Peterson, of Buffalo. "One that I would rather have than a thousand dollars.

"Money isn't everything in this world. There is many a big hearted, rich man who would give all he has on earth to be able to produce a remedy with such mighty healing power as Peterson's Ointment, to sell at all druggists for 35 cents a large box."

Dear Sirs:—

"I was an untold sufferer from old running sore and ulcers. I had tried most everything without any relief from pain. A friend told me of your wonderful ointment and the first box took away the pain that had not left me before in years and after using just nine dollars' worth of the salve I am cured. The ulcer was 5 inches by 6½ inches, is all healed and I can walk. Never, never will I be without Peterson's again.

"You may use this to recommend your ointment, if you wish. I cannot say enough to praise it." Yours truly, Mrs. Albert Southcott, Medina, N. Y. Mail orders filled by Peterson Ointment Co., Inc., Buffalo, N. Y.

WHO CAN ESCAPE CALUMNY?

How Chicago Lawyer's Quick Wit Got Him Out of Somewhat Embarrassing Situation.

"There's a lawyer in my town," says a member of the Chicago bar, "who is sometimes forgetful, but never at a loss to right himself.

"Once he had been engaged to plead the cause of an offender and he absent-mindedly began thus:

"'I know the prisoner at the bar and he bears the character of being a most consummate and impudent scoundrel.'

"At this point someone whispered to him that the prisoner was his client, when he immediately continued:

"'But what great and good man ever lived who was not calumniated by many of his contemporaries?'"

Avoiding Magnificence.

"A man's house is his castle," remarked the ready-made philosopher.

"Don't say that," protested the tenant. "The landlord is liable to think it over and make extra charges for a castle."

Highway Improvement

NEED FOR BETTER HIGHWAYS

Freight Congestion on Railroads Has Emphasized Importance of Our Country Roads.

We are being treated to a demonstration of what happens when the arteries of commerce become diseased, congested and run down. The lack of adequate transportation facilities on the railroads of this country mounts into the millions of dollars in the delays that are occasioned. Our railway system, like our agricultural methods, have grown up so gradually, keeping abreast, even ahead of the demands of commerce, we have come to look upon them as a matter of course. But the even balance between transportation facilities and demands of commerce is easily upset, as the experience of the past few months has demonstrated.

Our railroad system needs rehabilitation. But along with the improvements of the railroads there is great need for a material improvement throughout the land. Over the country roads move the raw materials that go to make up a vast proportion of the tonnage carried by the railroads. The present freight congestion has emphasized the importance of the country road. It has proved the value of hard surface roads as passageways for freight carried in motortrucks and automobiles.

Better Roads Would Permit Increase in Tonnage by Motor Vehicles.

Much relief for the railroads has come through the immense tonnage that has moved this summer on motor trucks. A greater tonnage would undoubtedly have moved in the same manner if our highway system had been fit. The time has come when the mileage of concrete, brick or other hard-surfaced roads must extend in an ever-increasing network until the remotest parts of the country can have the advantage of quick transportation every day of the year in a motor vehicle.—American Fruit Grower.

ROCK FOR HIGHWAY BUILDING

First Systematic Efforts to Determine Value Were Made in French Laboratory in 1878.

The first systematic attempts to determine the value of rock for road building purposes by means of laboratory tests were made in France, where in 1878 a road materials laboratory was founded in the French School of Bridges and Roads. Here the Deval abrasion test was adopted, and this test with slight modification has been accepted as standard throughout the United States. The test is named from its inventor. It was first used in connection with contract work in the city of Paris. Many valuable data were collected in this laboratory on the hardness and toughness of rock, and tests for these properties were developed which were, in principle, the same as those in use today.

ARGUMENT FOR GOOD ROADS

Judgment Rendered Against County Because Culvert Was Obscured by Weed Patch.

An argument for good roads that carries with it a sharp punch in the way of a substantial judgment for damages is disclosed in a recent decision of the supreme court of Wisconsin. In this case it appears that when a machine went out of the traffic path of an old-fashioned country road for the purpose of letting a tractor pass it struck the cement curbing at the end of a culvert which crossed the road at this point. Being covered with weeds the obstruction was not seen until the accident occurred. The county was held liable in damages for the accident.

USING CONCRETE FOR ROADS

Building Going on at Rate of Mile a Week With Equipment of Michigan Contractor.

With the ever-increasing interest in the necessity of building good roads there comes the effort to build them good and fast. With the special equipment that a Michigan contractor is using concrete roads are constructed at the rate of a mile a week.

Comb of Non-Laying Hen.

The comb of the non-laying hen is dry, pale, hard, and often covered with small scales. On a laying hen it is red, soft and larger. Look at the combs and feel them.

Help Cattle Trade.

The breeders of purebred cattle could help the trade by castrating a larger percentage of bulls than they are doing at present.

The world is old and the world is wide,
And who shall be wise to say
If the webs which are woven on every side
Are threaded with gold and gray?
Who shall be wise to judge and say
That life has been lived in vain?
We only see sin's cloak of gray,
Not the heart and its hidden pain.

GOOD THINGS FOR OCCASIONS.

For a change from the usual method of cooking chicken try:

Creole Chicken en Casserole.—Roll the pieces of chicken in seasoned flour and brown in a little hot fat. Do not have the fat too hot nor cook the chicken too brown. Transfer the chicken when cooked to a casserole, add a sliced onion and a shredded pepper, with a pint of tomato puree (sifted tomato); add one cupful of boiling water and let stand on the top of the stove until the liquid boils, then cover and set into the oven to cook. Let cook very slowly, the time for cooking depending upon the age of the chicken. When ready to serve, melt one-quarter of a cupful of butter, add the same amount of flour, one-half teaspoonful each of salt and pepper and the liquid drained from the chicken; stir until well cooked, then return to the casserole. Serve from the casserole.

Cherry Duff (University of Wisconsin).—Two tablespoonfuls of sugar, one-quarter cupful of butter, one-half cupful of sweet milk, one egg, one-half cupful of flour, one and one-half teaspoonfuls of baking powder, one teaspoonful of salt and one cupful of canned sweet cherries. Bake in well greased gem pans and serve with

Cherry Sauce.—One cupful of cherry juice, thickened with a teaspoonful of cornstarch, one-third of a cupful of sugar, a pinch of salt and a teaspoonful of butter added just before serving, with a few drops of almond flavoring, or, if preferred, vanilla.

Mock Crab Toast.—Melt two tablespoonfuls of butter in a double boiler; add half a pound of cheese and a tablespoonful of anchovy paste, half a teaspoonful of mustard, the same of salt; stir constantly until the cheese is melted, then add the beaten yolks of two eggs diluted with half a cupful of cream; continue stirring until the mixture becomes smooth and thick. Serve on toast or toasted crackers.

A good listener easily acquires a reputation for wisdom. We all have two ears but one tongue.

SEASONABLE GOOD THINGS.

Where peaches are plentiful a most delicious dessert may be made as follows: Fill a deep pie plate with sliced peaches, or canned will do as well; cover with a biscuit batter, adding enough flour to make a drop batter. Put into the oven to bake. Invert when done. Add sugar if needed, cinnamon, butter and a dash of salt. If nutmeg is preferred, use that in place of the cinnamon.

Peach Pie.—Spread a round of pastry over an inverted pie plate, prick with a fork and bake until brown. Set aside in the plate. Press cooked peaches through a colander, heat in a double boiler; beat the yolks of two eggs, add the sugar needed and stir into the hot fruit. When thickened add one tablespoonful of butter, a little salt and a grating of nutmeg. Fill into the pastry shell. Beat the whites of two eggs until stiff, add two tablespoonfuls of sugar and spread the meringue over the filling. Cook in a moderate oven ten minutes; the last two minutes the meringue should brown.

Pears Cardinal.—Cook canned pears in a sirup of sugar and water flavored with vanilla until scalded. Cool and set on oblongs of sponge cake. To the pear sirup add a handful of cinnamon candies. Pour this over the pears and sprinkle with shredded almonds.

Baked Potatoes a la Yellowstone.—Select smooth, large potatoes and bake until done; make two cuts across the potato at right angles; in a towel crush the potato to loosen the pulp and release the steam. Serve with a generous portion of butter in each, sprinkled with paprika.

Chestnut Croquettes.—Shell, blanch and cook in a good broth a pint of chestnuts. When tender, cool and cut in slices. Melt one-fourth of a cupful of butter, add the same amount of flour, salt and a dash of pepper; cook until smooth, add one cupful of rich, well-seasoned broth and half a cupful of cream, when boiling, and one and one-half cupfuls of the chestnuts. Mix and cool. Shape and fry as usual.

Pumpkin Pie.—Mix one and one-half cupfuls of strained pumpkin, add one egg, beaten light, three-fourths cupful of maple sugar, one tablespoonful of melted butter, one teaspoonful of cinnamon, half a teaspoonful of ginger and one and one-half cupfuls of rich milk. Fill a pastry-lined plate and bake forty minutes. Mapleine may be used to give the maple flavor if the sugar is not at hand.

Nellie Maxwell

Nut Bread.—Take one cake of compressed yeast, one-fourth of a cupful of warm water, in which dissolve the yeast, add one tablespoonful of shortening to a cupful of scalded milk, and when cool add to the yeast with half a teaspoonful of salt, two tablespoonfuls of molasses, one-half cupful of white flour and one cupful of whole filbert meats unblanched. Add entire wheat flour as needed for dough. Mix and knead until smooth. Let rise until double in bulk; shape in loaf and let rise again. Bake one hour.

IMPROVED UNIFORM INTERNATIONAL

SUNDAY SCHOOL LESSON

(By REV. P. B. FITZWATER, D. D., Teacher of English Bible in the Moody Bible Institute of Chicago.)

(©, 1920, Western Newspaper Union.)

LESSON FOR NOVEMBER 7

PRINCIPLES OF CHRISTIAN LIVING.

LESSON TEXT—Matt. 6:1-7; 12.

GOLDEN TEXT—Seek ye first the kingdom of God and his righteousness; and all these things shall be added unto you.—Matt. 6:33.

ADDITIONAL MATERIAL—Mark 10:23-31; Luke 11:2-4; 12:22-32.

PRIMARY TOPIC—Our Heavenly Father's Care.

JUNIOR TOPIC—Jesus Teaching How to Pray.

INTERMEDIATE AND SENIOR TOPIC—Golden Rules for Living.

YOUNG PEOPLE AND ADULT TOPIC—Counsels for Daily Living.

Having set forth in the previous chapters the standard of righteousness, Christ now exhibits the underlying principles which control the heir to the kingdom.

I. As to Giving (6:1-4).

Doing alms before men is not condemned, as that would contradict Matthew 5:16, but the doing of them before men to be seen of them. To seek publicity in doing our alms is to miss the reward of our heavenly Father.

II. As to Praying (6:5-15).

1. False prayer (vv. 5, 7). This consists (1) in praying to be seen and heard of men (v. 5). (2) Using vain repetitions (v. 7). This does not mean that we should ask but once, for we have examples of Christ and Paul praying three times for the same thing (Matt. 26:39-46; II Cor. 12:7, 8), but the using of meaningless repetitions.

2. True prayer (v. 6). Since prayer is a transaction of the soul with God, we should have a real desire for fellowship with the Father, then go and meet him in secret.

3. The model prayer (vv. 9-15). This involves (1) right relationship—"Our Father" (v. 9); (2) right attitude—"Hallowed be thy name" (vv. 9, 10); (3) right spirit—"Give us our daily bread," "Forgive us our sins," "Lead us not into temptation" (vv. 11-13).

III. As to Fasting (vv. 19-24).

The Lord knew the temptation which would befall his children in their pilgrimage here below touching wordliness, and the anxiety to which it would lead; therefore, he sets forth the proper attitude toward them:

1. The nature of earthly riches (vv. 19, 21). (1) Uncertain (vv. 19, 20). Earthly treasures corrode, or are taken from us. (2) Seductive (v. 21). Christ called riches deceitful (Matt. 13:22). It is not wrong to possess earthly treasures, but when earthly treasures possess us they become a snare.

2. The effect of earthly riches (vv. 22-24). (1) They blunt the moral and spiritual perceptions (vv. 22-23). When the heart is upon earthly treasures it is taken off God. (2) They render null and void all service (v. 24).

IV. As to Faith in the Heavenly Father (vv. 25-34).

1. Be not anxious about food and clothing (vv. 25-32). Because (1) it shows distrust for God (v. 30). (2) It is useless (v. 31). Anxiety can bring nothing. (3) It is heathenish (v. 32). Those who have not learned to know God may worry over temporal affairs, but those who know him as a loving Father should be free from care.

2. Be anxious to seek the kingdom of God and serve him (vv. 33, 34). This does not forbid proper forethought in making a reasonable support for one's self and family.

V. As to Censorious Judgments (7:1-12).

1. The sin and folly of censorious judgments. This does not forbid us making an estimate of the lives of those about us, for "by their fruits ye shall know them;" neither does it prevent us from administering rebuke to those who deserve it. It rebukes that readiness to blame others and to magnify their weakness and errors.

2. The duty of discrimination in dealing out holy things (v. 6). The gospel should be preached to all, but there should be discrimination, for "dogs and swine" have no comprehension as to holy things.

3. Qualification for discrimination (vv. 7-12). (1) A life of prayer (vv. 7-11). A life of prayer is a requisite for rightly divining the word of truth. (2) A disposition to treat others as one would be treated (v. 12). In all doubtful questions between man and man we should deal with our fellows as we would have them treat us. The whole law concerning the human relation is compressed into this one rule. It is not merely to refrain from doing injury, but positively to do that for others which we would desire to have done unto us under similar circumstances. Confucius set forth this principle negatively, but only the Christ could do it positively. Between the negative and positive sides of this rule is found the difference between heathenism and Christianity. No man can live this rule unless he has been born from above and abides with Christ in the school of prayer, till he becomes like Him.

Having Chances.

William McLaughlin, the hero of the Iroquois theater fire in Chicago, said as he lay dying: "Some men live to be fifty or sixty before they have a chance. I had my chance at nineteen, and I took it." Many of us complain that we do not have a chance, but the trouble is, usually, not that we do not have a chance, but rather that we are blind when chances do come. What chance for heroism had the Master? He lived in dull times among a commonplace people. The carpenter shop at Nazareth was his throne. The little village was his capital, the despised province was his world; but his kingdom—that was great! The events of daily life were his material. The hunger and thirst of the people were his chance.

FOUND CARDUI GREAT BENEFIT

South Carolina Lady Suffered Until She Couldn't Stay Up or Go Anywhere—Tells How Cardui Helped Her Get Well.

Batesburg, S. C.—In telling how she found relief from troubles that had caused her much suffering, Mrs. E. E. Oswalt, of this place, says: "Each month I would begin to suffer with my back and head. My limbs would ache and I would chill. I wouldn't be able to stay up, no matter what I wanted to do, or where I wanted to go. My people tried giving me different medicines and teas and tonics, yet I didn't get any better.

"Some one told me of Cardui, and I began to take it. I noticed it helped me. I kept it up. After a few months I didn't have any trouble. For about six months I used it, before . . .

"I found I was all right, and from that day to this have never had any trouble at this time. I have taken it since, a bottle or two in the winter, especially when I have been exposed, and would take a cold, for I consider it the best thing a woman can take to tone up the system, keep off nervousness, and increase the appetite. I certainly know it has been of great benefit to me."

If you are weak, nervous, or suffer from womanly troubles such as Mrs. Oswalt mentions, take Cardui, the Woman's Tonic.

A Pittsburgh lawyer was conducting a case in court not long ago and one of the witnesses, a burly negro, confessed that at the time of his arrest he was engaged in a craps game. Immediately the lawyer said: "Now, sir, I want you to tell the jury just how you deal craps."

"Wass dat?" asked the witness, rolling his eyes.

"Address the jury, sir!" thundered the lawyer, "and tell them just how you deal craps."

"Lemme outen heah!" cried the witness, uneasily. "Fust thing I know this gem-man gwine to ask me how to drink a sandwich."—Boston Transcript.

A Fiend for Gossip.

Jones approached the young lady assistant and inquired:

"Keep music machine records?"

"All kinds."

"Got any loud ones?"

"Plenty of them."

"I want the loudest one you have."

"March, waltz, song or what?"

"Anything, so long as it is loud."

"What's the idea?"

"My wife wants it to put on the machine when she has to leave the room so that the folks will have to stop talking until she returns, and she won't miss any of the gossip."—Portland Oregonian.

WHEN A WOMAN IS NERVOUS—WORRIED

Most women neglect their health, and for this they pay the penalty. Any woman will find that neglect does not pay. A little more attention to health would brighten up her life. If she asks her neighbors she finds that Dr. Pierce's Favorite Prescription benefits a woman's whole system. It not only acts upon the troubles and weaknesses peculiar to women, but is an all-round tonic that braces the entire body, overcoming nervousness, sleeplessness, headaches, dizziness and a run-down condition.

All druggists. Liquid or tablets.

FREDERICKSBURG, VA.—"After I had gone through a very serious operation I could not regain my health and strength. I suffered with pains and aches all over. I was also very nervous. My mother advised my taking Dr. Pierce's medicines. I took 'Favorite Prescription' and Golden Medical Discovery alternately and they soon built me up and seemed to give me new life. I heartily recommend these medicines to woman who suffer with any sort of weakness."—Mrs. W. S. Cox, 307 Charles Street.

EVANSTON, ILL., LIBRARY ON WHEELS

In recent years the automobile has been put to various uses, the latest being the "library on wheels." Books and papers of various kinds are now delivered and collected to homes and places of industry by the Evanston, Ill., public library. The photograph shows a group of children making a selection of the different volumes carried by an automobile.

SAYS CAR RUNS BEST AT NIGHT

Authority on Engineering Explains Effect of Cool Atmosphere on Motor.

COMBUSTION MORE PERFECT

Evening Air Estimated to Make Difference of About 5 Per Cent in Power of Engine—Produces More Powerful Impulse.

Speaking in a general sense, a motor ought to run better at night than in the daytime. Whether it does so or not has been a matter of argument between motorists ever since motorists existed, and one readily remembers columns of discussion that lasted for years in almost all the early automobile magazines.

Really, the thing is very simple, says that engineering authority, A. Ludlow Clayden, in Motor Life. One is liable to forget that two things are burned in a gasoline motor—gasoline and air. Neither can burn without the other. Also to get the best and most powerful combustion the proportions of gasoline to air cannot vary very much. To one cylinder full of air just so much gasoline and no more can be added.

Cylinder Full of Air.

To one cylinder full of air! What is a cylinder full? The answer is that it all depends upon what you fill it from. Everybody knows that when driving in very high altitudes the rarefied air causes a noticeable loss of power; anyone who has driven at 5,000 feet elevation cannot fail to have observed this.

Now, the real reason for the loss of power is that owing to the rarefying effect of the altitude, the piston can only suck in a smaller amount of air which will only carry with it a smaller amount of gasoline, and so will only produce a more feeble explosion. Of course, the volume of air taken in on the suction stroke is just the same whatever the altitude, but its weight is less in proportion as the altitude increases and the ratio for best combustion is between the weight of the fuel and the weight of the air necessary to insure reasonably complete combustion.

Heat Rarefies Air.

Other things have the same effect as altitude. For instance, heat rarefies air by expanding it so that on a hot day the air charge which an engine can breathe in is smaller in weight than it would be on a cold day. In testing airplane engines it is an invariable practice to make an allowance for the temperature of the atmosphere because the difference in power is quite appreciable. With a 300 horsepower engine a variation of 15 horsepower or more can easily occur by reason of nothing else but change in the air temperature.

Here is one of the principal reasons why an automobile motor does run better at night. Night air is almost always cooler than day air, so at night the engine can get a heavier charge and so produce a more powerful impulse at each explosion.

WINDSHIELD LIABLE TO LEAK

Where Water Seeps Through Between Two Panes Trouble May Be Obviated by Lapping Them.

With the slanting type of windshield water is liable to leak through the slight opening between the two panes of glass when a heavy storm is encountered. This trouble may be obviated by making one of the panes overlap the other, which, of course, calls for the fitting of a new upper or lower half.

Fender Noise.

When vibration has caused a more or less extensive crack in a fender there results a sharp, cracking noise that is very annoying and often is difficult to locate.

Rim Paste.

Many car owners employ a paste made of flake graphite and linseed oil to rub on the inner surface of the rim, before the casing is put in place. This prevents rust forming on the rim and eliminates sticking by the casing.

Watch Your Oil Gauge.

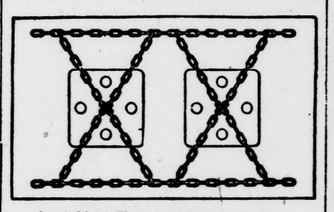
Make sure your oil gauge is free to move, as a wrong indication is fatal. Sometimes the wire is bent and the gauge does not fall as the oil is used up. The inexperienced driver does not realize this, and his engine runs dry.

ANTI-SKID CHAIN INVENTED

Flat Plates With Lugs or Projections Serve to Prevent Slipping of Motor Vehicle.

In illustrating and describing an anti-skid device, the invention of E. Benjestorf, Fernwood, Saskatchewan, Canada, the Scientific American says:

In connection with tire chains for the wheels of motor vehicles the inventor provides relatively flat plates



Anti-Skid Tread Plate for Tires.

with lugs or projections which serve to prevent skidding of the vehicle. Owing to the fact that short lengths of chain pass between the lugs the possibility of clogging of the lugs with mud is removed.

TO KEEP WINDSHIELD CLEAR

New York Chauffeur Utilizes Piece of Chamois Skin and Clean Rag or Paper.

Louis George, who has for twelve years been a chauffeur in New York, writes that for the last two years he has been keeping his windshield clear on rainy days in a very simple manner. When the windshield is first wet he takes a piece of chamois skin, a clean rag or, if he has nothing else handy, a piece of newspaper, and rubs the glass with it, pressing quite hard, and he says the glass stays clear so long as the rain lasts.

AUTOMOBILE NEWS

Keep watch on the spokes of the wheels, especially if the car is an old one. If the spokes can be shaken, tighten the bolts on the flanges of the hub.

* * *

In cases of chronically squeaky springs, try jacking up the car so that the weight is removed from the springs and then soaking these latter with kerosene.

* * *

Five gallons of kerosene containing one pound of commercial sulphuric ether will serve almost as well as gasoline as fuel for the modern automobile engine.

* * *

Motortrucks in New York state, with a capacity of one ton or more, must hereafter be equipped with mirrors so that the driver may have a view of the road behind him.

* * *

The finish of the car, the lustrous enamel and varnish, need tender handling in the early months of their service, or their beauty may be permanently destroyed.

* * *

Washing soda, kerosene and plain soap and water should be the cleaning agents used by the car owners for cleaning parts, tools, etc., about the garage.

* * *

Ammonia generates a heavy vapor that tends to seek the floor. In case of a gasoline fire this vapor settles on the flames, keeping off the air and smothering the fire.

* * *

In Louisville, Ky., no person under sixteen years of age is allowed to operate a motorcar, unless accompanied by the owner or a person more than twenty-one years of age.

* * *

In the thermo-syphon cooling system it is important to keep the radiator full or nearly so, in order that there may be adequate resistance to keep the water forcing its way forward.

* * *

A slightly tapering bolt with a number of steel washers under the head so that by removing one or more the bolt may be tightened in its bearings makes an admirable steering gear connection

* * *

Non-skid treads on your tires are excellent in summer for protection against slipping after light rains, but they are of little use in snow or ice; chains must be used.

* * *

Many new drivers make a practice of looking downward when they are trying to shift gears. This is quite wrong, the eyes should be on the road ahead.

* * *

Neatly covered tires look much better hanging on the back of the machine than do bare tires.

OLD MAN STILL HALE AND HEARTY; WORKS EVERY DAY AND PRAISES NEW REMEDY

In Bed for Months He Was Too Weak to Stand Up.

TAKES HYPO-COD REGAINS HEALTH

"I certainly am indebted to this new tonic Hypo-Cod," declared Wm. E. Gilbert, 1269 Battery Ave., Baltimore, Md. "It put me back on my feet in fine shape, and although I'm now over seventy years of age, I'm working every day and feeling fine.

"For months I was spending most of my time in bed with two doctors part of the time. Nervous indigestion had made me so weak and bad I could hardly stand on my feet. I had a bad cough too and pains in my chest and a general breakdown kept me away from work and in bed for months. My appetite was gone too, but Earle's Hypo-Cod built me up—gave me a new appetite and with plenty of strength and free of all those old troubles I've been working regularly since and praise Hypo-Cod to the sky everytime I get a chance. It does the work and it is pleasant to take too," continued Mr. Gilbert.

Good health, more strength, better appetite, strong lungs, steadier nerves and richer blood means better work, easier work and more fun out of life and it costs very little when you stop and think.

Earle's Hypo-Cod is simply a newer, more modern, more powerful tonic and is so pleasant to take even children love it and elderly folks say it agrees perfectly with the weakest stomach. See formula on bottle. Druggists, chemists and experts assert it is an ideal tonic. Drop in at the drug store tonight and get bottle or two and give it a trial.—Adv.

Main Idea With Youngster.

A youngster has caused his dad much worry by crossing streets without looking first for passing vehicles. To impress upon the youngster's mind the necessity of being more careful, he was telling his wife in the boy's presence a story of another little boy who, while crossing the street with an ice cream cone, had been run down by a heavy motor truck. For a brief moment the child sat in deep thought; then asked: "Did he spill the cone, pop?"

Important to all Women Readers of this Paper

Thousands upon thousands of women have kidney or bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the *result* of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

You may suffer pain in the back, headache and loss of ambition.

Poor health makes you nervous, irritable and may be despondent; it makes any one so.

But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.

Many send for a sample bottle to see what Swamp-Root, the great kidney, liver and bladder medicine, will do for them. By enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., you may receive sample size bottle by Parcel Post. You can purchase medium and large size bottles at all drug stores.—Adv.

Poser for Mother.

The subject of the Sunday school lesson was the golden rule, so during the next week when little Anna was naughty and her mother had to use her stick real hard and put her in a chair to reflect, she asked Anna what she thought about it. Fishy.

Exasperated though she was with her husband for showing himself "infirm of purpose," we don't believe Lady Macbeth called her husband "a poor fish"—though a country newspaper quotes her as exclaiming: "Infirm old porpoise, give me the dagger!"—Boston Transcript.

Coming back from Bear lake this summer a tourist lost his way, and could not find any main traveled road.

He rode on for some time until he met a couple of Italians, who were camping near the side of the road.

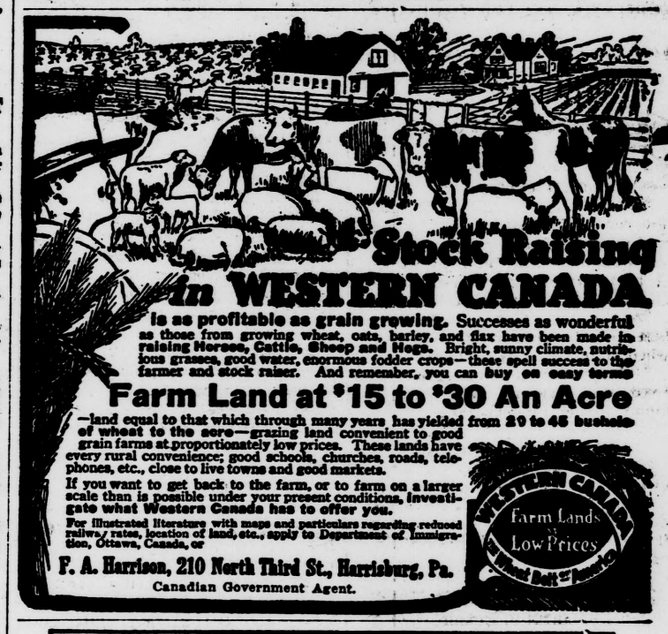
He called out, asking for information as to the road he should take, and received this answer: "You go one mile this-a-way, and then one-half that-a-way. Then you come to a railroad track. He go north-south, and you go same way as the railroad track."—Los Angeles Times.

In Its Proper Sphere.

A downtown young business man went out to Irvington the other evening to call on his best girl, relates the Indianapolis News. He took along with him several kodak pictures of himself, taken while he was on his vacation. After he had showed them to her he told her that she might have them. "Where shall I put them?" he asked jauntily.

"Oh, over there in the nut bowl on the table," she told him.

And she did not notice the downcast look that came over his face.



Stock Raising

FLEA EMBALMED IN HONEY

Little Insect Pest Found Which Met Its Fate in Egypt Many Thousands of Years Ago.

It is believed that the earliest food store laid aside for his wants by man, and which is still in existence, is a jar of honey found in an Egyptian tomb, and probably placed there for the sustenance of the dead during the journey across the Stygian river, says the American Forestry Magazine. When found, the honey had changed into a very dry candy and it had lost its sweetness, though it could still be identified as honey.

In the bottom of the jar, well covered with honey, was a dead flea of precisely the same sort as those which plague Egypt to this day. Apparently, the insect had hopped into the jar while the last rites over the dead were being observed, and when the jar was corked, the little fellow was shut up within, and, like the true patriot, he probably could have declared that death was sweet. Anyway, he sank to the bottom while the honey was still soft, and there the archeologists found him after a good many thousands of years.

Coal Going to Waste.

One-third of the coal in situ in Indian coal mines is at present being lost by bad methods of mining while three-quarters of a million hours are lost actually by wasteful power working of Indian collieries. Various suggestions towards more efficient working of the Indian coal mines have been made by a well-known London mining engineer, who has brought this enormous loss to light.

ALL THE TIME HE WANTED

Excellent Reason Why Traveler Need Not Worry Over Possibility of Missing His Train.

A Cleveland man with business interests in Illinois tells of an incident at a railway junction in that state. He was hungry and it was only two minutes before the departure of his train.

He rushed up to the counterman and exclaimed: "Give me a sandwich and a cup of coffee, quick! Haven't time for anything else."

"My friend," said the man behind the counter, "take all the time you want. Just cast your eye over this menu and I'll phone the superintendent to hold the train a while."

"Do you mean to say that he will actually hold the train while I eat?"

"Sure, friend. This is a branch road, and there's no other train coming or going over it this morning. The superintendent will want you to have a good meal—he owns this lunchroom."

Oyster Feasts Revived.

During the war years, England dropped the yearly oyster feasts at Whitstable and other beds, but they are now being resumed. The industry is ancient, and there are entertaining chapters in its history and fable. It is a pleasant tradition, for instance, that Nell Gwyn, who, made a master in chancery by Charles II, left a legacy to the benchers of Lincoln's Inn to buy oysters for dinner. At the inspection of the Whitstable beds recently it was stated that this is a good oyster season, and that, roughly 50,000,000 of the shell-fish will be available.
